

## TECHLOG Filter

**Have you completed your Weatec application?**

**If not, contact your deacon for an application before continuing**

**to setup this Weatec approved filter!**

Techloq is a cloud-based web filter platform offering pay-as-you-go web filter for windows computers. As of April 2021, the yearly price Techloq is \$99.49 per device. Find more information at <https://www.techloq.com>.

### Pros:

- Optional Skin Tone Masking
- Real time Content Filter
- Multi User per device

### Cons:

- No option for password bypass
- Exceptions must be reviewed by Techloq

**Note:** After testing, Techloq Filter has been approved as an acceptable category-based content filter if configured to meet the requirements set forth in the Weaverland Conference Electronic Technology Usage Guidelines. Please remember that no filter can be guaranteed to filter out all objectionable content; therefore, the Weatec Accountability Software must be installed on all devices in order to be in compliance with Weaverland Conference guidelines. The accountability software logs all web traffic, thus fostering brotherhood accountability. So even if objectionable content is missed by Techloq Filter, the content will still trigger a flag on the accountability server. Use the following configuration as a minimum; there is nothing preventing you from choosing stricter settings.

## How to Acquire

## How to Install (Windows)

Link to account setup page

[Techlog | Internet Protection](#)

Fill in your info to create an account

Click Go to Details

The screenshot shows the first step of account creation, titled 'Tell us about yourself'. At the top, a progress bar has a green circle with the number '1' and the text 'Tell us about yourself', and a grey circle with the number '2' and the text 'Create your account'. The form includes fields for 'Full Name \*', 'Phone Number \*' (with a dropdown for 'US (+1)'), and 'Email Address \*'. Below the email field is a note: 'Don't worry, we don't spam'. The 'Password to the Portal \*' field has an information icon and a note: 'Password is case sensitive and must be at least 8 characters.' At the bottom right is a 'Go to Details' button. Two arrows from the left point to the 'Email Address \*' field and the 'Go to Details' button.

Select the account type

Create an Authentication Code

Be sure to remember this, you will need it to contact support, or make requests from blocked pages.

Click Create My Account

The screenshot shows the second step of account creation, titled 'Specify details of your account'. At the top, the progress bar has a green circle with the number '1' and the text 'Tell us about yourself', and a green circle with the number '2' and the text 'Create your account'. The form includes radio buttons for 'Home Account' (selected) and 'Corporate Account'. Below is a 'Service Provider \*' dropdown menu with 'Techlog Retail USA' selected. The 'Authentication Code' field is empty. A yellow warning box states: 'You'll need this code when contacting support, or making access requests from the block page. Make sure you remember it!'. There are two checkboxes for consent: 'I consent to you contacting me by email or SMS with information about goods and services which you feel may be of interest to me.' and 'I consent to you disclosing my personal data to selected third parties so that they can provide me with information about their goods or services.' At the bottom are '< Back' and 'Create My Account' buttons. Three arrows from the left point to the 'Home Account' radio button, the 'Authentication Code' field, and the 'Create My Account' button.

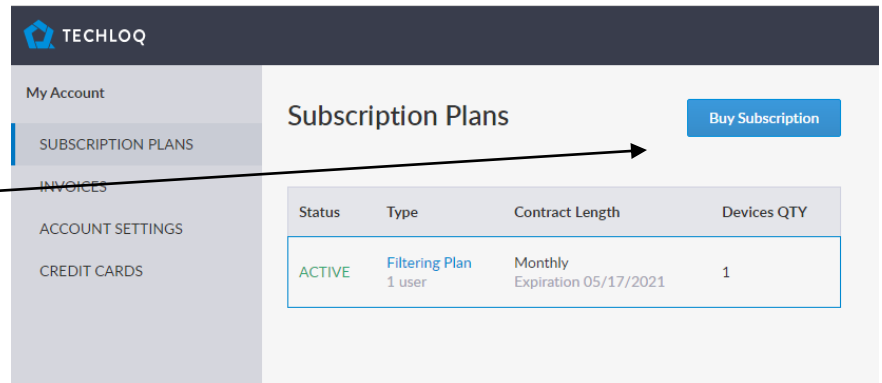

Login into <https://www.techloq.com/> using your username and password

After Login Click:  
Subscription Plans

Then Buy a Subscription

You will then have the options:  
By the Month, Quarter, or Year

This will generate a  
registration key needed in the client install

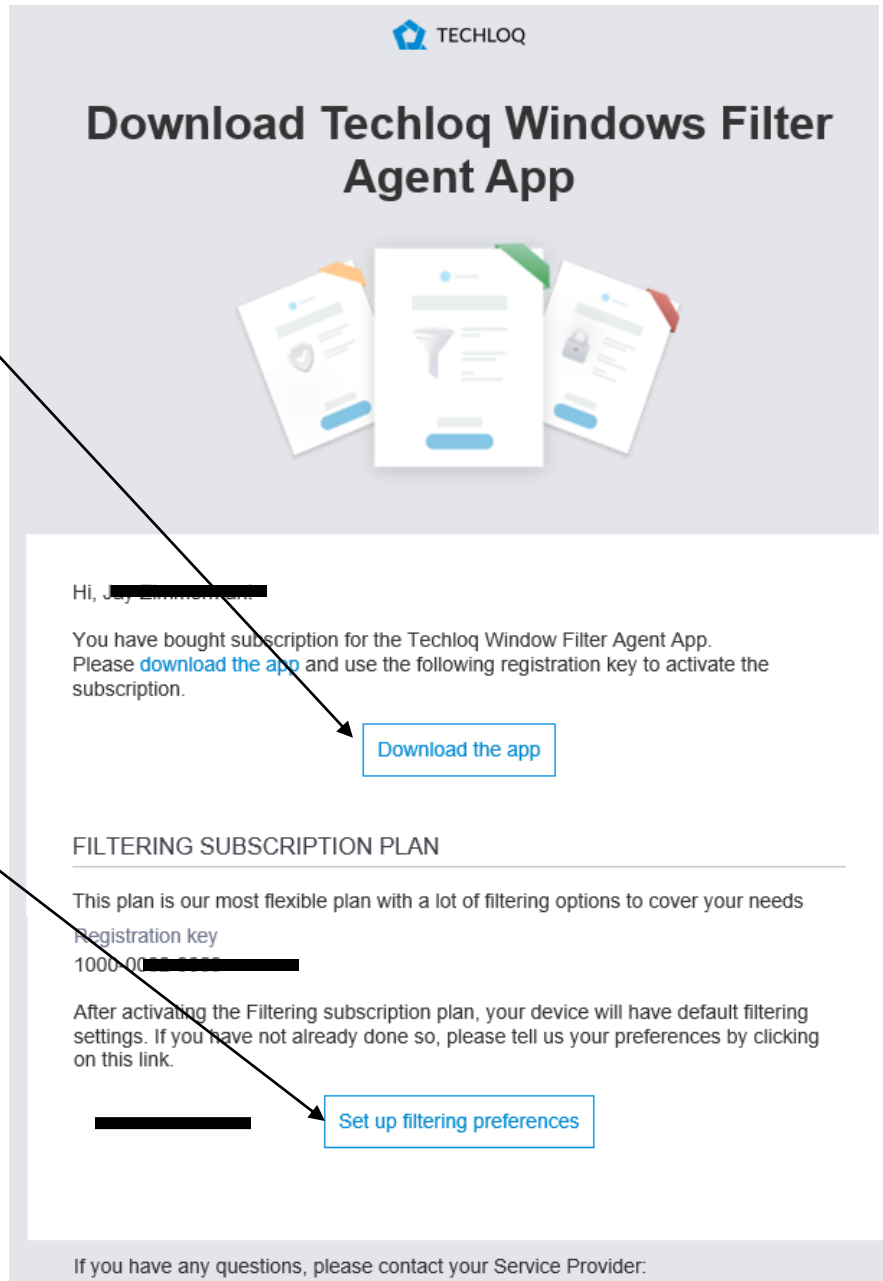

After you purchase a subscription, you will receive an email with a link to download the client to install on your windows computer.

During the install you will need  
to enter the registration key.

Click the [Set Up filtering Preferences](#)  
In the email to select the blocking  
options and Web site categories.

Please refer to the Weatec Guideline  
When setting the filter categories
